Heavy Industries works in the space between Imagination and Reality. We build what others dream, we have been building since 2003. As a custom fabricator based in Calgary, Heavy Industries has manufactured and installed some of Canada's best known public art sculptures and most complex architectural projects. Through technology, experience, and expertise, Heavy Industries has become a single source for designing, fabricating, and installing sculpture and custom features for artists, architects, and design professionals. In our world, iconic designs and creative places are built without compromise.

Heavy Industries is building a Carpentry Team and are seeking Carpenters to join.
