

Production Manager

Heavy Industries builds some of Canada's most interesting public art and creative construction projects and we are looking for a Production Manager to lead multiple architectural projects in our team-based environment.

PRINCIPLE RESPONSIBILITIES

- Assist with the creation of the production schedule and help department leaders allocate resources to specific tasks; identify future hiring/training, material and equipment requirements necessary for execution of the schedule
- Act like a coach and manage the overall productivity and strive towards the continuous improvement of this metric
- Manage the hiring, training, discipline, promotion and ongoing development of all production employees
- Manage the ongoing maintenance of the shop and its equipment and fleet vehicles
- Assist with the ongoing improvement our quality assurance
- Monitor the Shop floor
- Maintain the Company's safety culture and raise the standards, promote a safe work environment and in compliance
- Research and development of best practises and new processes/materials
- Schedule inbound equipment so that repairs are assigned in order of priority
- Work closely with the shop foremen and project managers

WHAT IS IN IT FOR YOU?

- Job Satisfaction:** You will get to directly participate in some of Canada's most interesting (and high profile) creative construction and art projects.
- Job Variation:** You will never get bored in this fast paced environment. Every project is different and every day comes complete with its own unique challenges and problems for you to solve.
- Job Opportunity:** You will be exposed to opportunities to grow and develop our relatively young business into one of the world's premiere manufacturing companies. We have not plateaued and do not plan on doing so any time soon.
- Culture:** You will get to work with fun, dynamic and highly skilled people that are driven to succeed.

Remuneration: You will be paid relative to the experience you bring and your accomplishments; you will be rewarded with company success. You will get a company phone, plenty of vacation, and be added to our benefits program.

QUALIFICATIONS

- Must have a minimum of 5-10 years fabrication shop experience
- Previous supervisory, management and leadership experience a must
- Direct experience constructing custom projects
- Ability to use standard desktop load applications such as Microsoft Office and internet functions
- Presentation skills are an asset
- Good communication and listening skills
- Good organizational and time management skills
- Motivated, hardworking and able to work in a fast paced environment
- Team player and safety oriented
- Valid safety certificates such as: Fall Arrest, WHMIS, First-Aid, Crane Operator Certificate, Forklift Operator Certificate recommended
- Valid driver's license & own vehicle

If this sounds like the right opportunity for you, please send your resume to careers@heavyworld.ca with "Production Manager" in the subject line.

About Heavy Industries

Heavy Industries has been beautifying the built world since 2003. As a custom fabricator based in Calgary, Heavy Industries has manufactured and installed some of Canada's best known public art sculptures and most complex architectural projects. Through technology, experience, and expertise, Heavy Industries has become a single source for designing, fabricating, and installing sculpture and custom features for artists, architects, and design professionals. In our world, iconic designs and creative places are built without compromise.
