

# Project Manager

Heavy Industries builds some of Canada's most interesting public art and creative construction projects and we are looking for a Project Manager to lead multiple architectural projects in our team-based environment.

## PRINCIPLE RESPONSIBILITIES

- Lead assigned projects from inception to completion
- Build long-term business relationships with our clients while acting as the main point of contact
- Work with a team to manage projects in accordance with project scopes, plans, schedules, budgets, labour resources, risk management, and quality control
- Follow Heavy processes to maintain accurate and consistent project files and documentation
- Act as the liaison between our clients and the installation crews
- Administer project tasks such as invoices, change orders, and progress reports

## WHAT IS IN IT FOR YOU?

- Job Satisfaction:** You will get to directly participate in some of Canada's most interesting (and high profile) creative construction and art projects.
- Job Variation:** You will never get bored in this fast paced environment. Every project is different and every day comes complete with its own unique challenges and problems for you to solve.
- Job Opportunity:** You will be exposed to opportunities to grow and develop our relatively young business into one of the world's premiere manufacturing companies. We have not plateaued and do not plan on doing so any time soon.
- Culture:** You will get to work with fun, dynamic and highly skilled people that are driven to succeed.
- Remuneration:** You will be paid relative to the experience you bring and your accomplishments; you will be rewarded with company success. You will get a company phone, plenty of vacation, and be added to our benefits program.

## QUALIFICATIONS

- Minimum 10 years of Project Management experience overseeing custom construction projects
- Experience managing projects in excess of \$2 million
- Completion of a relevant post-secondary program (project management, business, construction management, engineering, etc.)
- Project Management Professional (PMP) certification is an asset
- Demonstrated skills in leadership, management, and effective decision-making capabilities
- Experience with Microsoft Project and other project management tools
- Strong project execution experience with focus on planning, scheduling, cost, and risk management
- Solid knowledge of construction, fabrication processes, and the ability to read drawings
- Demonstrated ability to work both as part of a team and independently
- Strong communication and interpersonal skills
- Proven analytical and problem-solving skills

Please note the role may require some travel and on-site visits.

If this sounds like the right opportunity for you, please send your resume to [careers@heavyworld.ca](mailto:careers@heavyworld.ca) with "Project Manager" in the subject line.

### **About Heavy Industries**

Heavy Industries has been beautifying the built world since 2003. As a custom fabricator based in Calgary, Heavy Industries has manufactured and installed some of Canada's best known public art sculptures and most complex architectural projects. Through technology, experience, and expertise, Heavy Industries has become a single source for designing, fabricating, and installing sculpture and custom features for artists, architects, and design professionals. In our world, iconic designs and creative places are built without compromise.
